Eight Large Stalls Will Replace Small- 0, J. Kell of the Derchester State Bank Weds er Ones Now Being Torn Down-Work Begun Monday. One of Stevens Point's Fair Young Ladies, Tuesday Morning.

A crew of 25 men under the direction of H. H. Young, started work Monday morning tearing down the south and ter of Mr. and Mrs. Geo. Herrmann, east ten stalls of the Soo roundhouse in 313 McCulloch street, was married at this city. It is expected that this job nine o'clock Tuesday morning to Orwill take about two weeks, when work lando J. Koll, cashier of the State will immediately be begun towards re-bank at Dorchester. The ceremony placing the demolished portion with was performed at St. Joseph's church eight stalls sufficiently large to accom- by the pastor, Rev. H. J. Ehr, and the modate the immense locomotives now young couple were attended by Alfred used on the main line of the road. W. Koll of Theressa, Fond du Lac These eight stalls with the six left county, and Miss Esther Herrmann of standing of the old part will make this city, brother and sister of the sufficient capacity for fourteen engines, groom and bride respectively. Miss but it is probable that another addition Sadie were a gown of silk downe, cut will be erected on the north and west semi-princesse, and her long veil was end, either this fall or early next of tulle. She carried a shower bouquet of bride's roses. About thirty guests

Shortly after the crew began work partook of a four course wedding din-Monday morning an unfortunate acci- ner at the home on McCulloch street, dent happened to Harry Ingles, whose prepared by Mrs. Jas. Altenburg and home is at Pewaukee, Waukesha coun-served by Miss Teckla Guenther and ty. Mr. Ingles was removing one of Mrs. Al. Gardner. The several rooms the iron smoke stacks when a heavy were prettily decorated in pink and pipe fell on his leg just above the green. Mr. and Mrs. Koll left here on ankle and bruised and cut the bone so the 2:55 Soo train yesterday afternoon badly that he will be laid up several for a ten days' visit in Milwakuee and weeks. The young man was taken to at his parents' home in Fond du Lac Mercy hospital and attended to by Dr. county. On their return to Dorchester von Neupert, Jr. Harry is about thirty they will immediately go to house-years of age and had been employed by keeping in a completely furnished Mr. Young only a few weeks.

Was Long in Service.

Jeff Wright came up from Neenah, the last of the week, to spend a few days here with relatives and friends before departing for Omegal, Florida, where he will spend the winter with his son, Claude, and may conclude to remain permanently. Mr. Wright, who resigned from the railway mail service in July, after serving for twenty-two years, was appointed under the Cleveland administration. At that time he was a resident of Stevens Point, but for a number of years had been running between Manitowoc and Neenah, with headquarters at the latter place.

Twas False Alarm.

Similarity of the words "fight" and 'fire,' especially when pronounced over the telephone, called out company No. 1 at about 10 o'clock last evening. Three young men standing in front of S. J. Kryger's grocery store on N. Second street engaged in a fist fight, when one of the fellows was knocked against and broke a window. Mr. the city Tuesday morning and is here Kryger thought to summon the aid of a fireman, who is also special officer, but he possibly was a trifle excited and failed to convey his message distinctly.

The fighters heat a hasty retreat here. The fighters beat a hasty retreat before the department arrived.

State and National Banks in Portage County Show Good Gain in Deposits for Two Months.

State banks throughout Wisconsin were called upon for statements of their resources and liabilities at the close of business Aug. 29th. Similar reports were asked from the national banks for Sept. 1st. The last previous statement was given by both state and national banks under date of June 20th, when the nine financial institutions doing business in Portage county showed deposits of \$1,871,999.01. It will be seen from the table published below their total deposits on Aug. 29 and Sept. 1 amounted to \$1,946,249.05, an increase during the two months of \$74,250.04:

Junction State bank \$ 17,777.53 Security bank, Amberst Jet 44,608.74 State Bank, Nelsonville 82,900.95 State bank, Rosholt 106,687.45 Wisconsin State bank, city. 128,376.59 Portage Co. bank, Almond. 131,801.32 Internat'al bank, Amherst. 166,884.34 Citizens Nat'al bank, city.. 476,923.26 First National bank, city.. 790,288.87

hold their first meeting for the fall and winter season next Saturday afternoon, Sept. 24th. Beginning with this date the sessions will be held on alternate Saturdays at their rooms in the public library building. The following numbers will be carried out at the initial meeting: Musical program, Mrs. L. R. Lamb; "Menace of the Orient," Mrs. N. A. Week; discussion-leaders, Mrs. W. H. Coye, Mrs. F. E. Noble. The usual social hour will be enjoyed. A very interesting calendar has been prepared for the coming nine months' work by the club members. October 8th will be Pioneers' Day, with personal reminiscences by Messrs, John W. Strope and H. O. Halverson, and stories of early days by Mrs. W. W. Mitchell and Mrs. John R. Brinker. Several interesting papers are being prepared and much valuable information imparted on Home Economics Day, Oct. 22d. Among those on the program for Art Day, Nov. 5th, are Mrs. W. F. Owen, Mrs. J. A. Ennor and Miss Flanagan of the Normal art department.

"Pen Pictures and Unique Sketches of Potrage County Lumber Camps" is the title of a talk to be given by Mrs. M. E. Bruce on the afternoon of Saturday. Nov. 19th, and at the following that can't be survessed. The do tor meeting, Dec. 3d, J. APPEAL TO THE PUBLIC

The Erection and Equipment of a Mod ern Hospital in Stevens Point an Urgent Necessity.

To the Citizens of Stevens Point and Vicinity: -There is at the present time urgent necessity for the erection and equipment of a modern hospital in Stevens Point. You need but to be reminded that within a few weeks this city will be made the headquarters for a large number of railroad men to appreciate the importance of this proposition, for it is a well known fact that railroad men through the nature of their employment are especially subject to serious accident, requiring skilled surgical attention and expert hospital treatment. While we are already positively assured of the reestablishment of the division headquarters of the Soo line here, we have still further reason to believe that the company has in mind the further development of Stevens Poinc a- a railway center in the immediate future. In fact it is at the suggestion of the railway medical department that the present movement for the establishment of a permanent hospital has been under-For several years past there has been

in operation in this city a private hospital. Although it has struggled against many serious obstacles to success and has finally apparently been submerged under its difficulties, it has served at least one useful purpose, in that it has demonstrated begond a doubt the absolute necessity of having such an institution in Stevens Point. During the life of this institution many important surgical cases were taken care of here at home which otherwise would have to have been treated in the hospitals of distant cities, much to the inconvenience and discomfort of the patient and his or her friends, and at a great increase in the expense of treatment. The presence of this hospita! also demonstrated that Stevens Point has surgeons who are as competent to treat these serious cases as are the more widely advertised surgeons of other medical centers.

The City Hospital association has

been formally incorporated, new dir-

ectors have been elected and active

committees have been appointed to take charge of the details of organization, and now the executive committee ance. A committee will probably call of the importance of Stevens Point wil. require a considerable sum, probably from \$12,000 to \$15,000. Before entering into a project of this kind, practically all of the money must be in sight before the work is commenced; therefore the committee appeals to you now to make your initial contribution a substantial one, one that will measure up to your real interest. It may The Stevens Point Woman's Club will require some sacrifice, but now is the accepted time. This is a public enterprise, and everyone is invited and urged to take a personal interest in the proposition and to contribute what they can regardless of whether that amount be large or small. And we especially appeal to those of our fellow citizens whom God has endowed with plenty of these earthly goods to agaist in this humane work, reminding you of the words found in the scripture that, "It is more blessed to give than to receive." Charitaply inclined ladies, lodges, clubs and fraternal societies

would do a charitable work by contributing their mite toward the good work. The Board of Directors have purchased an account book which they have named "The Golden Book," in which all the names of the donors to the hospital fund will be entered and preserved for future generations.

Very respectfully, The Officers and Board of Directorat the Clay Hospital Association

AFTER AN EDUCATION

Claude Venne, of Tomahawk, Shows the Right Kind of Grit-He Deserves to Win Out.

The following interesting story is taken from the Appleton Crescent and while it is probably somewhat enlarged especially so on Sundays! upon, it nevertheless reads well, with a strong tinge of the romance. The young man mentioned is a son of Mr. and Mrs. Henry Venne, former Stevens Pointers, but who have made Tomahawk their home for many years:

Talk about showing grit in obtaining an education, Claude Venne, of Tomahawk, has them all beaten. The history of Lawrence college is full of noble endeavors made by students who had to struggle with poverty in their endeavors to obtain their degrees and many of them have since proven the career since leaving college, but none

The young man walked eighty-nine with only five cents in his pocket. That was his capital with which to is to work this fall, taking some out-Expression, and enter college next

open. The day after his arrival, which was a week ago, he joined the staff of bell boys at the Sherman house. That his intention to save appears to be an earnest one is verified by the bank book which he has, he having opened an account at one of the banks, depositing the tips given him. At the end of the first week he had \$3 to his credit. Naturally he is desirous of ing a few days at W. Barnsdale's. obtaining a position which will enable pressed it, he was in no position to

start, neither is he ashamed of it. In man, he said:

"I rode on the train from Tomahawk to Wausau and walked the rest of the way excepting six miles that I covered in a rig, having been able to get a ride. Of course, it is nothing for a young fellow to walk that distance, but then there was no other alternative for me. I had to walk if I wanted to get here. I have finished High school and two years ago entered Marquette university. While there I was taken sick and the doctor's bill amounted to \$60. Last summer I broke my foot, but I have nearly squared up my bills for those ailments.

"I am going to work this fall and try and save enough money to enter Lawrence next semester. In the meanwhile I will take up some work in the School of Expression. Prof. Garns has treated me fine, as have also the people around the Sherman house."

Venne, who is 20 years of age, has had some mercantile experience. He is a bright appearing young man. Here is an opportunity for some one to show their appreciation of true grit.

WERE MARRIED AT ST. PAUL

Dr. Emil O. Veyer, Fermerly of This City, and Miss Mabel Fitzgerald Wedded -Here on Wedding Trip.

Dr. Emil O. Voyer and bride, of Minneapolis, spent a few hours in this city last Friday afternoon, coming down from Junction City, where they were spending their honeymoon at the home of his parents, Mr. and Mrs. O. Voyer. They were married last Wednesday at St. Paul, the home of the bride, who was formerly Miss Mabel Fitzgerald. a bright, fascinating young lady, the only child of Mr. and Mrs. C. E. Fitzgerald, her father being a well known passenger conductor on the C., B. & Q. The groom, who spent his boyhood at Junction City and in this city, is now a recognized leading physician and surgeon of Minneapolis, devoting special attention to surgery, and is a gentleman of worth and promise, being a self-made man in the broadest sense of that term. A St. Paul paper contained the following account:

The marriage of Miss Mabel Fitzger-

ald, daughter of Mr. and Mrs. C. E.

Fitzgerald, and Dr. Emil Oswald Voyer

was solemnized at 11 o'clock this morn-

ing at St. Luke's Catholic church. The nuptial mass was celebrated by the pastor, Rev. Ambrose McNulty, and the marriage ceremony was performed by Rev. T. E. Cullen of the Immaculate Conception church, Minneapolis. Prof. Leo Bruenner played a program of wedding music and the solos were sung by Mrs. Frances Vincent-Coveny and James Rogers, Minneapolis. Adalaid Frenzel was the maid of honor, and the three bridesmaids were Miss Marguerite Rogers, Miss Irene Warnboldt and Miss Frances Osberg. Mr. John Cullem, Minneapolis, attended the groom, and the ushers were James Williams, Guy Lathrop and Dr. John Egan, Minneapolis. The bride wore a gown of white satin trimmed in point lace. Her long tulle veil was fastened by a diamond sunburst, the gift of the groom and she carried a shower bouquet of bride's roses and lilies of the valley. The bridesmaids were dressed in silk crepe gowns of the rainbow shades and they carried arm bouquets of white and yellow asters. A reception will be given this evening at the home of the bride's parents, Mr. and Mrs. Fitzgerald, Laurel avenue. Dr. and Mrs. Voyer will leave this evening

Women as Well as Men are Made Minerable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerful-

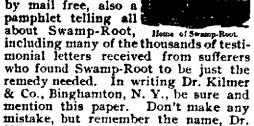

ness soon disappear when the kidneys are out of order or dis-

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the

child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold

by druggists, in fiftycent and one-dollar size bottles. You may have a sample bottle by mail free, also a

FREAK TREASURY NOTES.

The Face of the Bill, Not the Back, Indicates Its Value. Despite the careful scrutiny given A Boy's Remarkable Adventure

every bill that leaves the bureau of engraving and printing, a number of "freak" notes find their way into circulation from time to time. Such a one was a note that once came to the subtreasury at New York. It had the imprint of a twenty dollar note on one side and of a ten on the other. But, inasmuch as the face showed the figures 20, \$20 was the legal value of the blil.

In most cases the "freak" bills that have escaped the vigilance of the bureau's officers are national banknotes, which, like the regular treasury notes, are printed there. As intimated already, the face value is always recognized when the "freaks" come to be cashed at any branch of the treasury. The imprint on the back has no lawful status whatsoever.

The notes are printed in sheets. Usually there will be one twenty and two tens on a sheet. They are printed one side at a time, so it can readily be seen that the printer in turning over the sheet might get it upside down and thus put a ten dollar back on the twenty dollar note or a twenty on the back of one of the tens.

When errors are discovered the misprinted sheet is laid aside to be destroyed. It cannot be torn up at once, for every sheet has to be accounted for. After some formalities it is ground into pulp.

Almost all the "freak" bills that have been issued in the past have found their way back to the treasury, there to be destroyed. It is thought that very few of them are now scattered about, and these are for the most part in the hands of curio hunters.-Harper's Weekly.

The Talipot Palm of Ceylon,

The talipot palm of Ceylon has gigantic fanlike leaves, which when fully expanded form a nearly complete circle thirteen feet in diameter. Large fans made of them are carried before people of rank among the Cingalese. They are also commonly used as umbrellas, and tents are made by neatly joining them together. They are used as a substitute for paper, being written upon with a stylus. Some of the sacred books of the Cingalese are composed of strips of them.

For Use on Face and Hands

is taken by people in tropical countries all the year round. It stops wasting and keeps up the strength and vitality in summer as well as winter.

ALL DRUGGISTS

The Curious Mistletoe.

The story of how the mistletoe gets on the trees is a most interesting one. Covering the mistletoe twigs are pearly white berries. These come in the winter season, when food is comparatively scarce, and hence some birds eat not them freely. Now, when a robin eats a cherry he swallows simply the meat and flips the stone away. The seed of the mistletoe the bird cannot flip. (No. 23, A.) only resource is to wipe it off, and he form Resourcing No.7- To amend section A of article IV of the constitution, relating to the compensation of members of the legissitting at the time. This seed sprouts Whereas, at the biennial session of the legislature for the year 1907, an amendment to after a time, and not finding earth of the two houses, which proposed amend-ment is as follows:

Resolved by the assembly, the senate con-curring. That section 21 of article IV of the constitution be amended by striking out the word "five," being the twentieth word in the ledy thereof, and by inserting in lieu thereof the word "ten," so that the same when that in the wood, and the mistletoe section 21. Each member of the legislature shall receive for his services for and during a regular session the sum of ten hundred dollars, and ten cents for every mile he shall throw its leaves away, as do most throw its leaves away, as do most parasites, but keeps them to use in winter, when the tree is leafless.

Already Planned.

There were few persons who knew the Locke family even in a casual way who had not discovered that Mrs. Locke was in the habit of nagging her husiand and children. She loved them dearly, but at times nobody would have

"What did Mr. Locke say when he found himself safe after those hours of danger?" some one asked a friend who had been in company with Mr. Locke on an ocean steaemr which met with an accident in mid Atlantic. "He never says the ordinary thing."

"No," said the friend, with a dry smile. "He didn't that time. I said to him, James, we ought to make something more of our lives from having them spared to us in this way,' for I had felt pretty solemn. I can tell you. I've no doubt James did, too, but what he said was, 'William, a good share of the rest of my life will be spent in explaining to Theodora how I happened to choose that steamer when there were dozens of others that reached

home without any accident." -- Youth's

Best Ever Used

JUGGLED BY BRUIN

With a Pet Bear.

WHIRLED ABOUT LIKE A TOY.

After the Unique Performance Was Over Seventy-six Stitches In the Lad's Scalp and Rolls of Surgical

Ben was a pet black bear four years old and as good natured and friendly as if his ancestors had never had bad reputations. There is only one occasion on record, says his owner, Mr. William H. Wright, in his blography of Ben in "Black Bear," when even to appearances did Ben misbehave him-

The circumstances being examined. however, the animal came off with his! good name virtually untouched. Ben had been left in his shed as usual. Later in the day a crowd was seen about the door. I burried home to find most of the women of the neighborhood wringing their hands and calling down all kinds of trouble on my

At first I could make neither head nor tail of the clumor, but finally gathered that that bloodthirsty, savage and unspeakable bear of mine had killed a boy, and upon asking to see the victim I was told that the remains had been taken to a neighbor's house and a doctor summoned. This was pretty serious news; but,

knowing that whatever had happened Ben had not taken the offensive without ample cause, I unchained him and put him in the cellar of my house, well out of harm's way, before looking further into the matter. Then I went over to the temporary morgue and found the corpse-it was one of the Urlin boys-sitting up on the kitchen floor, holding a sort of impromptu reception and, with the exception of Ben, the least excited of any one con-

I could not help admiring the youngster's pluck, for he was an awful sight. From his feet to his knees his legs were lacerated, and his clothing was rafters. In fair weather the roof can be torn to shreds, and the top of his head -redder by far than ever nature had and look up at the raindrops as they intended-was covered with blood. As soon as I laid eyes on him I guessed what had happened.

had broken open the door of the shed and gone in to wrestle with the bear. cords and simple, inexpensive pullers Ben was willing, as be always was, are all that are necessary to raise and and a lively match was soon on, lower these greenhouse sash, provided whereupon, seeing that the bear did not harm the two already in the room. another of the boys joined in the scuffie. Then one of them got on the

took kindly to the idea and was soon galloping round the little room with Then another boy climbed on, and Ben carried the two of them at the same mad pace. Then the third boy got aboard, and round they all went, much to the delight of themselves and their cheering audience in t**he d**oorway.

But even Ben's muscles of steel had their limit of endurance, and after a few circles of the room with the three riders he suddenly stopped and rolled over on his back.

And now an amazing thing happened. Of the three boys suddenly tumbled belter skelter from their seats one happened to fall upon the upturned jaws of the bear, and Ren, who for years had juggled rope balls, cord sticks and miniature logs, instantly undertook to give an exhibition with his new implement.

Gathering the badly frightened boy into position, the bear set him whiriing. His clothing from his shoe tops to his knees was soon ripped to shreds and his legs torn and bleeding. H.s. scalp was facerated by the sharp claws third bend from until the blood came. His cries rose to shricks and sank again to means But the bear, unmoved, kept up the perfect rbythm of his strokes.

Finally the terrified lookers-on in the doorway, realizing that something had to be done if their leader was not to be twirled to death before their eyes. tore a rail from the fence and with a few pokes in Ben's side induced him to drop the boy, who was then dragged out apparently more dead than alive

The doctor took seventy-six stitches in the lad's scalp and put rolls of surgical plaster on his shins. So square and true had Ben juggled him that net a scratch was found on his face or on any part of his body between the top of his head and his knees. He eventually came out of the hospital no worse for his ordeal, but I doubt if he ever again undertook to ride a bear.

How She Won Out.

"Oh, George," she cried in perplexed tones. "I'm afraid we must part." "Part! Why must we part, dear?" be echoed.

"On account of father," she replied. "He fears we would be mismated. We are so very different, he says."

"In what way are we so different?" he asked, with a show of dignity.

"Well, father says I am of such a ready and willing disposition, while you seem so-so backward, so reluctant and hesitating, so-so leath to come to the-the point, don't you know."

"He does, does he?" blustered George, bracing up, and the very next afternoon she was showing her girl friends how stunning it looked on the third finger of her left hand - Boston Herald.

He that lives upon hope will die fasting.-Franklin,

A SKY OPEN BEDROOM.

The Roof a Noval and Clever Feature.

The illustration shows an open air bedroom described by David Fairchild in Good Housekeeping.

"It is built under some big red oaks about ten feet back of a one story cottage near Washington, and it is reached by a little covered passageway from the dressing roof. There is lit-Plaster on His Shins Saved His Life, erally nothing to it but a floor and a roof, and the roof is made of glass, so that lying comfortably in bed one can look straight up into the trees and through them to the stars.

In constructing our little house we built first four corners of brick-cement could be used-and laid floor joists across to form what carpenters call the plate. It is not necessary to make the corners more than two feet high above the ground, for if the land is well drained there is no danger of the bedrooms being damp.

On the joists is a floor ten feet square, and upon this is built the rough pine frame. The upright 4 by 4 inch corner posts and 2 by 4 inch studs are braced at the bottom by putting in short 2 by 4's crisscross to form a wainscoting three feet high.

The most novel feature of this sky open bedroom is, of course, the roof. There is a little cap of wood extending down about eighteen inches on either side of the ridge, and the roof itself, which is made of ordinary cheap greenhouse sash, starts underneath this and slides up and down on the

INTERIOR OF THE APARTMENT.

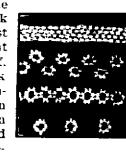

opened, and when it rains one can lie strike upon the glass panes, and anything more magnificent than a thundersform at night I cannot imagine, It developed that the two Urlin boys with the great oak branches bending and tossing above one's head. Sash the rafters on which they run are well scaped and plenty of play is left between the sash frames and the strips of board which hold them in place.

This was a new one on Ben, but he bienched cotton sheeting tacked on in-The wainscoting is covered with unside to a height of three feet from the floor, and this allows free circulation of air, but affords the semi-privacy required and will last for three or four years. The height of this wainscoting is a matter of choice, and if more privacy is desired it could be made

The Making of Bead Chains.

All the designs for bead chains seen in the cut are easily made if the following directions are carried out: The first design is a simple chain, and this should be practiced before attempting floral devices. First string four blue beads; tie the

end of the silk through the first bead to prevent them slipping off. Hold the work between the finger and thumb on the left hand, then string a blue bead and pass the needie through the

SIMPLE AND EFFEC-TIVE DESIGNS.

right to left. Take up another bead and ! through which the silk is tied. It will in straight lines across, but one up and one down, so that each bead fits into a little gap in the previous row.

The work should now be turned the needle through the second bead ed as blind.-Addison. from the edge. String a blue bead and pass the needle through the last bead at the left edge. The work must be turned at the end of each row so that the needle always passes from right to left. Now, for the fourth row string a blue bead and pass the needle through the second head of the row, which is a blue, then string a white one and pass through the white in the previous row. For the fifth row string a white and pass needle through the white in the fourth row, then a blue and pass through the blue bead on the left edge, when it will be seen that four rows of blue beads are worked and the pattern begun again on the opposite side. Having mastered this design, the other patterns will be quite

To Renovate Old Curtains. If in getting your window draperies

ready for fall you find them in a very worn condition they can be made to look like new in the following way: Cut the lower and side borders from a full length curtain, following the designs instead of a straight line, and lift up on the net a half yard or until they measure a window sill length. Pin or basic to position and sew around on the machine, afterward cutting away the torn net beneath. Launder in the usual way and you will be pleased with the result, no seams being visible.

Combination Car on Green Bay Road Thrown From Tracks at Plover by Throwing Switch Too Soon.

The Green Bay & Western has for more than a quarter of a century been recognized as one of the safest roads in the state to travel upon, but passengers who went south on the branch from this city to Plover, last Saturday afternoon, were at least momentarily convinced that "all signs had changed." The train left here on time, at 2:30, and was entering on the "Y" north and west of Plever station. The brakeman had thrown the swtich and then another switch farther down. The engine passed over as did also the forward truck of the combination passenger coach and express car, but before the rear trucks reached the switch it was thrown back. The mistake was not noticed soon enough to be rectified, and soon things commenced to present a dangerous aspect. The engineer stopped as quickly as possible, but not quick enough to prevent the rear trucks being torn loose and the overturning of the car, which fell upon Guy E. Morrill of this city, and Guy

Pierce of Plover, were the only occupants of the express car at the time. The former sat upon a box, and as the car fell over he landed between the stove and wall on the opposite side to where he had been sitting, while the box landed just above his head, narrowly missing him. Fearing the stove would follow, Mr. Morrill quickly regained his feet and scrambled out upon the ground, but not until one of his shins had been cut and he was considerably bruised. Mr. Pierce saved himself by jumping from the side door just as the car was tipping and had a narrow escape.

The coach was occupied by several passengers, among them being Mrs. Robt. Herman, Mrs. Wallace Verrill, Mrs. Cross, Mrs. John Lukaszvitch and two children, Mrs. H. A. Marlatt, Mrs. Jacob Suski and Miss Rose Sprung. all of the town of Plover, Mrs. Chas Glodowski of Arnott, Mr. and Mrs. Jos. Glodowski of this city, Mrs. U. J. Puariea of Buena Vista, A. C. Nelson of Scandinavia, and P. Leonhowdt of Sturgeon Bay, all of whom were cut and bruised. Mrs. Herman, who is the wife of the

section foreman at Plover, was the most badly hurt. A few weeks ago, while riding home on a hand car after attending a show in this city, she was accidentally thrown to the ground, breaking three ribs. On Saturday she came here to consult a physician, and in the wreck the ribs were again torn apart and she was otherwise injured.

For several minutes there was the wildest excitement among the occupants of the car, the ladies screaming and crying for help, but the train crew. assisted by P. Curran, the local agent here, who was temporarily in charge of the train, and Mr. Morrill set to work and soon had them out in safety. The car was quite badly wrecked, but was righted the next day and taken to Green Bay for repairs. General Supt. Frank B. Seymour arrived from Green Bay on three days here looking after the wreck street. and settling up with those who were in jured, visiting and interviewing several, at the home of M. W. Rice last night and Dr. von Neupert, Jr.

suddenly last Monday evening at the training studies in the Bradley Polyresidence of Mr. and Mrs. A. M. Gower, 325 Dixon street, where he had leave for Chicago next week to commade his home during the past few mence a three years' course in denyears. When the Wisconsin Central tistry at the Northwestern university. shops were located here Mr. Larrabce was employed for quite a number of years as patternmaker, but since their removal to Fond du Lac he had not been actively engaged. For several years he suffered with heart trouble and for a few days at a time his condition was quite alarming. Of late, however, he had felt comparatively well, but last Friday night was taken with an especially severe spell and required the aid of a physician for several hours. About the middle of Saturday forenoon he had another hard attack, but later in the day got about the house and only a few minutes before his death was out of doors. Returning inside he laid down on the lounge and expired almost | immediately. Mrs. Gower noticed a change in his countenance and becoming alarmed, called one of the near neighbors, Ald. A. E. Redfield, but before the latter could reach the house, the spirit of Mr. Larrabee had taken The now deceased gentleman was

born at Searsport, Me., Mar. 15, 1833, and was therefore in the 78th year of his age. He came to Stevens Point in 1892 and had been a continuous resident of this city ever since with the exception of a few months which he spent with his daughters in the west. Mr. Lurrabee's wife died at Tacoma, Wash., ten years ago. The surviving members of his family are Misses Anna and Leona Larrabee, both of whom live at Portland, Ore., and one of the young ladies is a teacher in the schools of that city. An uncle of the deceased gentleman was governor of Iowa for several years. Andrew was an exceptionally well read man, a brilliant conversationalist and always took a deep interest in civic affairs. All who knew him admired the venerable gentleman for his many good traits of head and heart and the news of his sudden death is received with deep regret.

Besides his daughters above menfioned the only relative known to be living is a cousin, John Larrabee of St. Paul, who married a daughter of Mr. and Mrs. F. Sutherland of this city. A message was received late yester-

day by H. D. Boston, the undertaker, requesting that Mr. Larrabee be buried here and saying that instructions for the funeral would be forwarded by letter. It will therefore be a couple of days before announcements for the services can be made.

More Locals.

Miss Sadie Buck entertained at a six o'clock dinner last evening in honor of her birthday anniversary.

Don't Mistake the Cause of Your Troubles --- A Stevens Point Citizen Shows How to Cure Them.

Many people never suspect their kid neys. If suffering from a lame, weak or aching back they think that it is prizes, one for the best and one for . only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Stevens Point people testify to permanent cures.

Mrs. Ellen Leahy, 450 Illinois avenue, Stevens Point, Wis., says: "About six years ago my health became all run down as the result of overwork. My kidneys were badly disordered and I had but little control over the passages of the kidney secretions. I also suffer- down the road, and a moment later the ed from terrible pains in the small of my back and though I doctored, I was unable to get relief. I finally heard of Doan's Kidney Pills and procured a supply at Taylor Bros. drug store. After using them a short time, I was again able to resume my housework with ease and was free from the pains in my back. I intend to keep a supply of Doan's Kidney Pills on hand at all

It's Your Kidneys A THRILLING TALE ROAD BUILDING EXPERIMENTS

It was proposed at the Millerton Literary club that a prize be offered for the best short story. Some one suggested that it would be better to offer a prize for the worst short story, whereupon it was determined to give two the worst. At a meeting of the club the manuscripts handed in were read by the secretary. The following was in competition for the booby prize: A TALE OF THE CATSKILL MOUN-

TAINS. One dark, dismal, disagrecable night in midwinter, when the June roses were in full bloom, a woman stood at the door of a cabin in the Catskill mountains. Her tattered garments fluttered in the wind, while her jewels flashed in rainbow hues in the hot; noonday sun.

"He cometh not," she said.

There was a creaking of horse's hubs splendid figure of a young man of some seventy-five summers, mounted on an Arabian steed, with steel springs and leathern curtains, emerged from the

"Oh, Algernon, why are you so late?" "Clarissa, dearest, I have been delayed by a puncture in the left hind leg of my trusty steed."

news for you. Father is unalterably opposed to our marriage. He has a six pounder, loaded and pointed up the chimney, ready to fire as soon as he is aware of your presence." "What, ho! Does the old dotard think

to scare me?" And with one leap he landed on the roof and stood looking defiantly down the chimney. There was a report, followed by a shrick from Clarissa, and her lover's beadless trunk rolled at her feet. Maddened by the sight, Clarissa was

about to rush into the cabin to reproach her father with the bloody deed when Algernon stopped her.

"Consider." he said. "The gun is by this time reloaded. Let us take refuge under the fall of the Kaaterskill." Alas, they were too late! Just as

they were about to sink behind a mountain peak the father appeared at his cabin door with a fieldglass and. pointing it deliberately at the fugitives, pulled the trigger. "Are you hurt, dearest?" asked Al-

gernon tenderly.

"Tis nothing-a mere break in the left ventricle of the heart. I am better now. And you?" "A trifle. The old man has been

madly fooled. Both my legs and both my arms are cork."

"Then let us speed on."

Pulling the throttle wide open, they skimmed the ice merrily. Reaching a lake from which the water had been drained to supply the neighboring residences with warmth, they looked macadam roads known as glutrin. It about for a boat with which to cross.

Algernon, and, seizing a toboggan tied to a post, they mounted and rode up the mountain side with lightning speed.

The sight from the summit was resplendent with beauty. The rising sun was sinking in the north. The full moon, a slender crescent fit to deck a lady's brow, was at the moment passing behind Arcturus. All nature was hushed, the stillness un-

The lovers were standing on the unconscious of danger, when the pursuing father, wringing the sweat from his raven locks, reached the summit of a neighboring mountain and looked seeing them, he drew a searchlight directly at Algernon's heart, fired, profit or harm him? The brave man who could not be blazed with the brilliancy of pitch

see you burn to a cinder?"

waded into the lake and was extin-

Moved by Algernon's bravery and A farmer old, so we've been fold, Clarissa's tears, the old man relented. Seeing the limbless body of his would be son-in-law floating in the lake, be But his mirth in song was not so long, waded in and, seizing Algernon by the right arm and left leg, dragged him to the shore.

"Give me your hand, noble man." said Clarissa's father.

"You've burned it." meaned Alger-

Fortunately at that moment a distinguished dominie passed by, walking on an alpenstock, and consented to unite He was laid up ill, while the doctor's bill the pair in the boly bonds of matri-

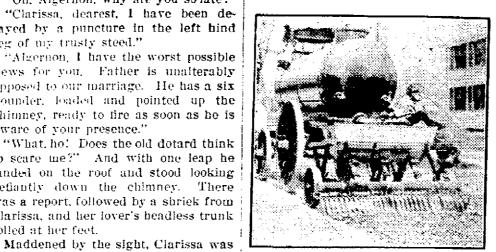

Years have passed since the sound of these festivities ceased to leap in echoes from crag to crag. The buttercups and daisies lovingly ned to each other, kissed by the clouds that stoop from heaven to wrap them in a winding sheet of disagreeable fog. The shrill whistle of the locometive softly floats over the mountain plains where once the only means of conveyance. But we're glad to say there shines a ray was beaven's own simple meteorite. The numerous progeny of Algernon and Clarissa now scamper over the So the man with his wheel or automobile mountains.

The committee unanimously agreed to bestow upon the author of this thrilling tale the booby prize.

burg, Pa., of New Methods.

Important changes in the matter of constructing state highways are likely to be made as a result of experiments being conducted by the Pennsylvania state highway department. These were begun two years ago, when it became apparent that under the stress of increasing automobile traffic the ordinary standard macadam roads could not be kept in first class condition without expensive repairs.

The various experiments bave been made in the vicinity of Harrisburg, in order to be frequently inspected. The first was a piece of road built on what is called the penetration system in 1908. Upon the usual foundation was placed a layer of crushed stone, half the thickness of that ordinarily used in macadam construction, and into the interstices was poured an asphaltic oil containing about 80 per cent of asphalt. The surface of the road was then covered with dry stone screenings and the mass rolled. Although subjected to heavy traffic for over a year, the road shows but little evidence of wear and is nearly dustless. Two pieces of road closely resembling the ordinary sheet asphalt pave-

SPRINKLING ASPHALTIC OIL.

ment, which were built last year, show practically no evidence of wear. Telford blocks, laid by hand, were used as a foundation, and on top of this was placed a mixture of crushed stone and asphalt, mixed hot and rolled. A surface of fine stone screenings and asphalt was placed over this.

Another experimental road now being constructed has a telford base, upon which is placed a layer of crushed stone and asphalt mixed with the stone cold and the asphalt hot. The surface is sprinkled with hot asphaltic oil and covered with a thin coating of coarse stone screenings.

These various methods exceed the cost of ordinary macadam by at least 25 per cent, but this extra cost is supposed to be more than compensated by the reduced cost of upkeep.

The department is also experimenting with a dust layer for ordinary is a byproduct of wood pulp making. "Oh, for a mud scow," exclaimed The liquid has the consistency and appearance of tar. It is soluble in water, "Here is something better." replied and one of its peculiarities is that each succeeding rainfall renews the bonding or cementing qualities of the compound. A piece of road dressed with it early this season is being carefully watched by the department.

A BOON TO ANY STATE.

Money Value of a Hard Wagon Road to the Farmer.

The reduction of a cent or two in broken save for the blows of a thou- railroad rates or a similar increase is of sand artisans in a boiler shop in the far less importance to the farmer than the condition of the wagon road on which he hauls his produce to the railpeak, pensively viewing the scene and road. If he must waste a day going and coming, if he must haul a small load for fear of getting stuck en route, if sometimes he cannot get through the road at all, even though the market wildly about for the fugitives. Not price of his product be at that time unusually high, what does a slightly from his vest pocket and, pointing it lower or higher rate on the railroad

On the other hand, a hard, level road worsted by round shot succumbed to is his good servant. He can make the the more subtle power of electricity. trip thereon quickly at almost any sea-An arm and two legs caught fire and son of the year. He can haul a large load and so have to make the trip less frequently. A good road means, there-"My love! My love!" shrieked Cla- fore, a practical reduction in the cost rissa. "Must I stand here helpless and of getting his products to market. It means more money for every bushel of "Fear not, dear heart," replied the wheat or potatoes or other crop. It iron hearted man. "I am only vulner- means a lower cost for all the supplies able in the thorax." With that he he buys in town.-Minreapolis Journal.

Bad Roads Did It.

With a team of horses strong Drove down the road with a heavy load While singing his merry rong. For his horses gave a leap. As he ran amuck in the mud he stuck Clear up to his axles deep.

Dad roads did it! And a wheelman gay went out one day For a joyful morning spin.

With the weather bright, his heart was light As he left the country inn, But he went not far when he felt a jar

Which started his troubles and cares. Came in with the one for repairs. Bad roads did it!

A millionaire prim and neat Went out for a ride by the river's side In style that was hard to beat: Rut, alas, he found that the broken ground And the ruts and the holes so great

In an automobile of wood and steel

Had smashed a wheel of his automobile-What he said we cannot relate Bad roads did it!

Of hope that will right this wrong When in every state they will legislate To help the good roads along Will never again get blue,

And the farmer with smiles will travel for

On a road that is fit to use. Good reads will do it! -Harry Ellard in Cincinnati Commercial Tribune.

HIS SUPERB NERVE

It Enabled Him to Loll In Luxury With Not a Cent of Cost.

CRUSHING A HOTEL KEEPER.

The Beau Was Elegant In Dress and Exquisite In His Bluffing and Played His Part Well-Never Known to Pay a Bill Under Any Circumstances.

"Misery loves company," quoted Mr. Tabb, an old time Virginia gentleman, the other night. "There's a great deal of truth in that old saying.

"Some forty or fifty years ago there was a celebrated Virginia character, well known in Washington, Baltimore and Philadelphia, whom I shall call Bean Smith, because Smith wasn't his real name. Beau Smith was not only noted for the elegance of his dress, but also for his absolute disregard of all financial obligations. He was never known to pay a bill under any circumstances.

"Beau entered the office of the old Monumental hotel, in Baltimore, one night, registered, and upon being assigned to one of the best suits of rooms in the house, for he would be satisfied only with the best, he proceeded to make himself thoroughly at home and settled down for a long stay. He ordered champagne by the case and cigars by the box for the entertainment of such friends as might visit him in his apartments and, in short, lived as though he had millions behind him. The proprietor of the hotel, Mr. Guyer, had heard of Beau, but be could not believe that he would deliberately run up such a large bill if he had no intention of paying it, and he hesitated about speaking to such an elegant gentleman about such an inelegant thing as money, but after Beau had been a guest at the Monumental for more than a month and had said nothing about paying his bill Mr. Guyer summoned up his courage and had Beau's bill made out and sent up to him. In a few moments Mr. Guyer received a polite but urgent message from Beau, asking him to come to his apartments at once.

"'I sent for you, Mr. Guyer,' said the inpecunious beau, 'to show you a most remarkable document which has been sent up to me from your office. I don't wish to complain of your clerks, sir, but I dislike being annoyed in this way. Will you kindly look at that and tell me what it is?

"'That is a bill, Mr. Smith,' said Guyer as soon as he recovered his breath.

"'So I observe,' responded Beau, but. Mr. Guyer, it is made out against me.'

"'Certainly,' replied the hotel ma 'It is our account against you for board and lodging, wines, cigars and other extras for the last month, and I would be glad if you'-"'Why, my dear sir.' interrupted

Beau, laughing, 'you surely never expected me to pay this bill?

"'I most certainly did and do expect you to pay it,' answered Mr. Guyer firmiy

"'But, dear sir,' said Beau gently, 'you knew who I was when I came to your house."

"Mr. Guyer admitted that he did. "'Then, you know,' continued Beau, that I have never been known to pay a bill to any one, and no one in his senses ever expected that I would. Now, my dear sir, I beg of you to destroy this ridiculous document and see that I am not annoyed again with such foolishness.

"'Do you intend to pay this bill or not? demanded the hotel proprietor

"'I do not,' replied the Beau quietly. "'Very well, then, I will sue you,

" 'That is your privilege, sir.' "'And I will get a judgment, too," said Guyer angrily.

"'You will get more than that, Mr. Guyer,' responded Beau calmly. 'You will get yourself laughed at by the entire country for being so foolish as to imagine that you could collect a bill from Beau Smith. Pray do not subject yourself to such ridicule."

"Guyer besitated; he knew he would be laughed at unmercifully by every one, and, then, too, he could not help but admire the colossal cheek of Smith, so he sat down again and lit a fresh cigar.

"'Mr. Smith, said he. I'll tell you what I will do. If you will move over to the City botel and play this same game on old man Barnum I'il give you a receipt in full for all that you

owe me and say no more about it." "'Receipt the bill, Mr. Guyer,' answered Smith coolly I had been stopplug with Mr. Barnum for a month prior to coming to your house, and he also promised to give me a receipt in full for what I owed him if I would move over here and play the same trick on you'"-Philadelphia Ledger

Dry Cleaned Them. "Why is your grandpa's face band-

aged?" asks the lady next door, "He was sleeping in his big chair." explains the little girl, "and Willie turned the nozzle of the vacuum cleaner against his whiskers."-Life.

Two-thirds of life are spent in hesifating and the other third in repenting.-Sourcette.

A CHINESE TITBIT.

Eggs That Have Been Preserved For a Century or More.

When Li Hung Chang made his tour of the world his commissariat carried with it a supply of Chinese preserved eggs for the venerable ambasandor's special use. Some of these eggs were exhibited in New York while he was staying here, and a few experts had the temerity to sample them. "They were not so bad after all," was the verdict of one American connoisseur, "although by their looks you would think they would come under the ban of the pure food law."

The eggs were incased in clay and when unpacked looked like pieces of pumice stone. They are preserved in this way by the Chinese for a century or more, and Li Hung Chang admitted that the hen which laid the eggs for his morning meal might have been decapitated anywhere from a quarter to haif a century before he was born. The process of keeping is very primitive, but as effective as it is simple. The eggs are first boiled hard, and then while they are hot they are wrapped in soft clay and packed awav.

In this condition the Chinese claim they will keep forever and not lose their flavor or wholesomeness. Indeed, they consider that age improves the flavor. Li Hung Chang's commissariat brought the eggs for his personal use in bags packed in rice husks, but as the clay was hard there was not much danger of breaking them. When opened the "white" was found to be almost black and the yolks green. The flavor, however, was preserved. The Chinese chop these preserved boiled eggs and decorate most of their viands with them. They also enter largely into all their sauces.

Duck eggs are also preserved by the Chinese in a somewhat similar fashion. There is a considerable trade in duck eggs of the Peking and Muscovy breeds, and many Chinese in this country import them from China in the preserved condition. The duck eggs Weekly.

SEARCHLIGHTS.

A Special Pattern Must Se Used on the Suez Canal.

Every war vessel carries from one to twenty searchlights, and every vessel of any description whatever passing through the Suez canal has to carry one of a special pattern.

A searchlight consists essentially of an arc lamp of special form, a perabolic mirror and a case to hold the lot. the case being mounted so as to be capable of movement in two directions-viz, vertically and horizontally. The hood, as this case is called, is made of sheet steel about 3.32 inch thick. The turnable, trunnions, etc., are cast in gun metal. The

arms which support the bood are of cast steel. The lamp box is formed as part of the hood. The mirror is carried on springs in the back cover, and at the front of the hood is a "front glass" mounted in a gun metal ring, and the dispersion iens when carried is hinged on in front of this. Training is carried out by means of a worm and worm wheel or by a rack and pinion. Slewing is effected by means of a pinion which gears into a crown wheel on the underside of the turntable, or else it is done directly by hand.

The Suez canal regulations require that the projector shall be capable of giving the light required under two different conditions-in the first case a broad, flat beam of light illuminating both banks and the canal uninterruptedly, this being used when no other ship is approaching; in the other case they require a beam having the same angle of divergence and consequently the same width as the first, but divided into two portions, with a dark interval between, thus giving light at both sides, but not directly in front, and so not interfering with the navigation of the approaching ressel.-J. M. Heslop in Cassier's Magazine.

A Fortune In Snuffboxes. Count Nesselrode, the Russian states-

After using a gas stove for baking leave the oven open for a little while to allow the gas to escape. This will prevent sweating and rusting.

If chops and small steaks are placed In tin pie plates and set on top of the brolling grate they can be well cooked, and the tin plates will be much easier cleaned than the broker grate would be.

Keep the range black by wringing out a sponge kept for the purpose in warm water and rubbing well with soap. Wash the stove while it is not warm. It can thus be kept black and free from grease spots. Use the oven lighter for articles need

ing long, slow cooking-as, for example, tapioca and Indian puddings, bread, piec, etc. It will give a slow, even heat when used alone and burn much Gas may be saved by remembering

that matches are cheap and turning off the gas the moment you no longer need it-by turning off the gas a little before the cooking is done and finishing by the heat already generated. When anything you have been cook-

ing ras been heated to the boiling point turn the blaze low enough to keep the heat just at that point.

Cream Dainty.

One cupful of milk, two heaping table-poonfuls of sugar, a heaping tablespoonful of powered gelatin, a quarter pint of water, a teaspoonful lemon june, a cupful whipping cream. three jolks of eggs, three ounces of preserved ginger, two tablespoonfuls are boiled and preserved in a paste of of ringer sirup. Put the gelatin into charcoal instead of clay.-Harper's a saucepan with the water. Set in a warm place until dissolved. Beat up the yolks, add to them the sugar and milk, boiling; pour this back into a pitcher, stand the pitcher in boiling water and stir the custard until it coats the spoon; add to it the gelatin, lemon juice and ginger sirup. Whip up the cream until stiff, then add to it the custard. Allow this to stand until it is almost set. Then stir in the ginger cut in small pieces. Pour into a wet mold and put in a cool place until firm. Turn out and decorate with cut pieces of ginger.

> Marshmailow Cresm. One-fourth box gelatin, one-half cup cold water, one-half cup boiling water. whites of four eggs, one cup granulated sugar, one teaspoonful vanilla, one teaspoonful lemon extract. Soak gelatin in the cold water five minutes, add the boiling water and place over a teakettle until thoroughly dissolved. Cool, but do not chill. Stir the sugar in the dissolved gelatin, beat the white of the eggs very light and to the eggs add the gelatin and sugar, a few spoonfuls at a time, beating constantly. Divide in two parts and to one part add pink coloring and flavor with vanilla. To the white part add the lemon extract. Mold in layers, adding pecan nuts to the pink part and maraschino cherries to the white part. May be served with or without whipped

Coffee Blancmange. One cupful of milk, one cupful of strong, clear coffee, two ounces of cornstarch, two heaping tablespoonfuls of sugar, one teaspoonful of vanilla extract, one heaping tablespoonful of butter. Put the coffee and half of the milk in a saucepan to heat. Mix the cornstarch smoothly with the remainder of the milk and add to it the hot liquid in the saucepan. Stir over the fire till boiling and boil slowly for eight minutes, stirring all the time. Add the sugar, butter, vanilla and mix well. Pour into a wet mold and turn out when cold.

Particularly Good French Dressing. Mix a half teaspoonful sait and the man of the last century, was a famous same amount of sugar in a bowl; add collector of snuffboxes. He collected gradually, stirring all the time, one them as a diplomatist, receiving one or cupful olive oil. When sait and sugar two for each treaty he signed, and are dissolved beat in half a gill of when he had got \$100,000 worth of vinegar. Add four red chilis, eight them turned them into cash and be- green chilis and half an onion, all came a capitalist. His capital he in- chopped very fine. Beat all together vested so judiciously that his descend- and add a tablespoonful minced parsants are multimillionaires. The mor- ley. Beat again and pour into a can. al of Count Nesselrode's experience is Let stand an hour before serving. that a snuffbox is not to be speezed. When ready to serve shake in the jar or whip with an egg beater.

When Frying Bacon.

A village parish clerk who employed In so many households bacon and a grammarian to teach his daughter eggs is the most popular breakfast heard him with much surprise define dish that more than one housewife may be glad of a tip concerning the bacon's preparation

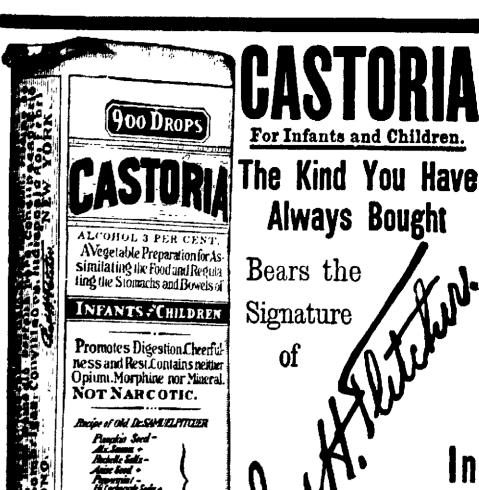

If the bacon is too salt cand it is, inarticle, before plural nouns. No one deed, sometimes; place a little water in the pan in which you intend frying "Hold there!" said the parish clerk. it. Let the water come to a boil, then "I must contradict you in that. Don't pour the water off and cook the bacon to the usual manner

Not only does this method do away with the saltiness, but it renders the bacon more tender as well.

Deodorized Cabbage. A piece of stale bread, a small lump

of soda or a piece of charcoal placed in the pot will lessen the disagreeable odor that arises when cooking cauliflower or cabbage.

Ab appetizing lettuce salad is made by arranging the leaves in a salad bowl, sprinkling with stuffed olives cut in slices and just before serving adding a mayonnaise dressing.

FIFTY YEARS THE CHARGES WITHDRAWN

Mr. and Mrs. Henry Belanger Observe Important | Street Commissioner Lukaszevig, Temporarily Suspended, Again on Duty-Other Council Doings.

An adjourned meeting of the council

niversary of their wedding at their charges made against Paul Lukaszevig, home, 500 Division street, last Sunday, street commissioner, but these fell flat, Henry Belanger and Miss Victoria Mayor Walters announcing that although

cleaner. The mayor said he agreed with the alderman, and advocated the hiring of an additional man, the cost to be not over \$200 per year more.

City Atty. Owen said he did not know whom this criticism was meant for. but the board now have three men cleaning streets, keeping them in ordinary good condition, but if the work was done at night instead of in the day. he did not know but what it would be better. He further stated that Mr. Eukaszevig had done better work during the past two months than before. Comptroller Cunneen said that the third man as street cleaner would commence the next day.

By resolution and otherwise the board f public works were authorized to ex tend the sewer on Main street from Reserve to Michigan avenue, on Ellis street from Church to Reserve street, and also on Jefferson street from Division street to East avenue.

The matter of purchasing a typewriter for the city offices was brought up, but no action taken. The question of putting in public closets adjoining the square for men and women was mentioned by the mayor, also a rest room for women was advocated by Ald. Abb. Ald. Redfield, Urowski and Abb were appointed as a committee on this matter, to report at the next meeting. The street commissioner's salary was deducted from the date of his suspension until the present, on motion of Ald. McDonald. The matter of procuring garbage cans, more wheel scrapers, and waste paper receptacles was left to a committee consisting of Ald. Schenk, Port and Scribner.

Lon Myers spoke of the improved condition of back alleys, and the fact that people are more anxious than ever before to keep them so, and willing to pay for the work. Ald. Schenk stated that he believed the streets of Stevens Point would compare with any city in the country, and then the council adjourned.

OBITUARY

Mrs. Johanna Scholl, widow of the late Jacob Scholl, died at the home of her son, Charles, near the corner of Park and Water streets, at 8 o'clock last Monday evening. She suffered a stroke of paralysis last Thursday and it is very likely that another stroke was had shortly before her death. Mrs. Scholl had been quite poorly for six months or more, a general breaking down of the system being the re-

Grace Van Studiford, the comicopera star, has filed a petition in bankruptcy in New York city She owes \$20,901 and her assets consist of ten dollars cash and some clothing that is exempt.

H. Rowland Clapp of Baltimore. Md., was apointed receiver for the Baltimore Compositype company, on petitions setting forth that the company was unable to meet liabilities in excess of \$3,000,000.

Albert W. Harris of Chicago. a banker, passed through Omaha driving a prairie schooner, on his way from Los Angeles, Cal, to his home, where he expects to arrive about October 1.

Woodrow Wilson, president of Princeton university, was nominated on the first ballot by the New Jersey Democratic convention as its candidate for governor.

George E. Roberts of Chicago took the oath of office as director of the date for the begining of the trial of mint at Washington, the position he the ten indicted Chicago packers. held until he resigned to become bank of Chicago.

Mrs. Nina Bennett, wife of a tailor in Seattle, Wash., killed her threemonth-old son and herself with struchnine. She left a note saying that she was going insane.

GENERAL NEWS.

Congressman Henry Sherman Boutell was defeated for the Republican nomination for congress in the Ninth district by Frederick H. Gansbergen in the Illinois primaries. Returns indicate that the men who voted for William Lorimer for senator in the general assembly, both Republicar and Democratic, gained a sweeping victory. Even the men who were drawn into the "jackpot" investigation have been renominated by overwhelming majorities except in perhaps two instances.

According to Dr. Joseph A. Murphy. United States medical inspector, who is attending a conference in Denver. the births of indians exceed the death; rate by a small margin.

Canada's total wheat crop this year is 122,785,000 bushels, according to the estimate of the government statistics officer. This is 43,959,000 bushels less than the yield of 1909.

Prof. Augustus J. Pepper, pathologist of the University of London, a witness for the crown in the Crippen murder trial, under cross-examination by attorney for the defense, admitted his inability to establish the sex of the victim, parts of whose body were found in the cellar of the Hilldrop-Crescent home.

George W. Fitzgerald, former assorting teller in the Chicago sub treasury, is charged with the theft on February 19, 1907, of \$173,000 from the United States sub-treasury.

Thieves entered the Royal Alexandria hotel at Winnipeg, Man., and stole diamonds and other jewels valued at close to \$100,000, the property of the countess of Antrim

Ariona Stivers, sixteen years old, a high school pupil in North Denver. Col., committed suicide and in a note repreaches a man in Oklahoma City

for his lack of faith in her. The largest gathering of negroes ever held in New Orleans was opened at Washington Artillery hall, when the president, Dr. E. C. Morris of Helena, Ark., called to order about 7,000 delegates to the national convention of

negro Paptists. The estate of Thomas F. Walsh, which has been estimated at \$100,000,-000, is worth only \$6,500,000, according to the inventory filed by S. A. O. born, representing the estate at Den-

George W Fitzgerald, who is under arrest charged with stealing \$173,000 from the Chicago sub-freasury while he was assorting teller in 1907, was released on bonds in the sum of \$50. 000 after Judge Landfs had refused ball to \$25,000.

Returns from all but 21 towns in Maine give Plaisted (Dem.), for governor, a plurality over Fernald (Rep.), of 8,551 votes. Hinds and Guernsey. Republicans, and McGillicuddy and Gould, Democrats, are elected to congress. Democrats have elected 21 out of the 31 state senators and 86 out of the 151 representatives.

Fanned by a 40-mile gale, the forest fire which started in the north wood clearing, near Lynden, has spread until several towns of Whatcom county, Wash., are menaced, dozens of ranch homes and barns have been destroyed and a total loss of \$1,009,000 inflicted.

The direct primary election for nominations held throughout Washington resulted in an overwhelming victory for Miles Poindexter, Insurgent, over Judge Thomas Burke, the regular Republican candidate for United States senator.

Congressman Henry Sherman Boutelle will run as an independent candidate for re-election in November. His defeat at the Chicago primaries for the nomination by Frederick H. Gansbergen has neither satisfied nor discouraged him, and he declared that not only would be run independently but he would win "hands down."

Senator Robert M. La Follette is suffering with an ailment that may require an operation, according to James A. Frear, secretary of state of Wisconsin, who is in Minneapolis, Minn., with the senator. The senator will go to Rochester, Minn., to consult with a

Eight persons, five women and three men were more or less seriously injured when Arthur Moxsey's Wright aeroplane swerved sidelong from its course above the race track and plunged into the crowd on the cement platform before the grandstand, at the state fair at Milwaukee. The aviator was uninjured, and the machine but slightly.

H. L. Howard, a brakeman, was killed and nineteen persons injured in a head-on collision between Burlington and Rock Lland passenger trains one mile north of Holt, Mo. The accident was due to a misunderstanding in train orders.

November 14 has been set as the

The pre-nuptial agreement between president of the Commercial National | Mme. Lina Cavalieri, the opera singer, and Robert Winthrop Chanler, the terms of which have been the subject of many divergent reports of disgreements between scion of the old Astor family and the Italian diva, was filed in the register's office at New York by counsel for the singer.

> Dr. William Henry Wilcox, scientific analyist to the home office, who discovered a deadly drug in the residence of Dr. Hawley H. Crippen, took the stand when the trial of the accused man and his typist, Ethel Clara Leneve, for the murder of the former's wife was continued at London and swore that death was caused by poi-

> Minor Heir, the good brown son of Heir at Law, broke another world's record at the state :air track at Indianapolis, pacing a tille with one runner for company in 1:5814. The former record was 1:49.

> About two-thirds of the jewelry. worth about \$6,000, stolen from the summer home of Mrs. John De Koven of Chicago at Mattapoisett, Mass., was found hidden in her cottage.

The Rev. L. A. Lambert of Rochester, N. Y., who won fame by his replies to Robert G. Ingersoll's attacks on religion, is reported to be dying at New Foundland, N. J.

In defiance of the czar, the Finnish diet has re-elected President Svinhufvid, and it may be dissolved.

Blowing open the safe in the post office of May's Landing, N. J., robbers stole \$2,000 and escaped, it is believed, in an automobile.

The American Book company has been declared not a member of the book trust by a circuit court decision rendered in Jackson county. Arkansas. James Lane, a candidate for pro-

bate judge in Madison county, Hilnois, who died a week ago, was nearly nominated at the primaries. His friends remained loyal to him even in death. Mr Alexander Ivanovitch de Neli-

doff, the Russian ambassador to France, is reported dying at his post in Paris.

A STRIKINGLY STRONG ARTICLE BY COL. HARVEY.

THE WRITER SEES NO CLOUD

"A Plea for the Conservation of Common Sense" That is Meeting With Cordial Approval.

A strikingly strong article by Colonel George Harvey in the North American Review, for September, is written in a view of such hopefulness for the American future that it has attracted wide attention. The article is entitled, "A Plea for the Conservation of Common Sense" and it is meeting with the cordial approval of business men of all shades . of political opinion throughout the entire country. In part Colonel Harvey

"Unquestionably a spirit of unrest dominates the land. But, if it be true that fundamentally the condition of the country is sound, must we necessarily succumb to despondency, abandon effort looking to retrieval and cringe like cravens before clouds that only threaten? Rather ought we not to analyze conditions, search for causes, find the root of the distress, which even now exists only in men's minds, and then, after the American fashion, apply such remedies as seems most likely to produce beneficent results?

Capital and Labor Not Antagonistic.

"The Link that connects labor with capital is not broken but we may not deny that it is less cohesive than it should be or than conditions warrant. Financially, the country is stronger than ever before in its history. Recovery from a panic so severe as that of three years ago was never before so prompt and comparatively complete. The masses are practically free from debt. Money is held by the banks in abundance and rates are low.

of government to business. of interests, on the one hand, and the whole people, on the other, protectsaving the former from mad assaults.

"The solution is not easy to find for the simple reason that the situation is without precedent. But is not progress being made along sane human personality, strong beyond and cautious lines? * * *

Conserve Common Sense.

"Is not the present, as we have then, of preparations for the future? Patriotism is the basis of our instrmemories:

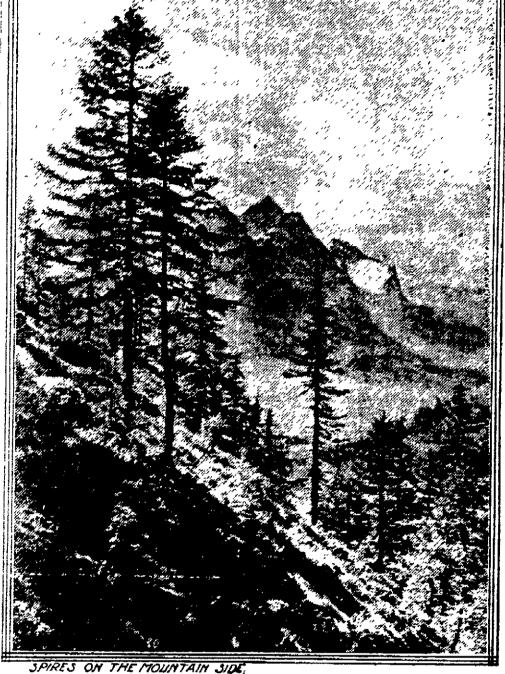

I am.

"As the health and happiness of my body depend upon each muscle and nerve and drop of blood doing its work in its place, so the health and happiness of my country depend ! upon each citizen doing his work in his place.

"These young citizens are our hostages to fortune. Can we not safely assume that the principles animating their lives augur well for the permanency of the Republic? When before have the foundation stones of continuance been laid with such

care and promise of durability? "The future, then, is bright. And the present? But one thing is needful. No present movement is more landable than that which looks to conservation of natural resources. But let us never forget that the greatest inherent resource of the American people is Common Sense. Let that be conserved and applied without cessation, and soon it will be found that all the ills of which we complain but know not of are only such as attend upon the growing pains of a great and blessed country.

nature; but the pine, for many. seems to have a message "Why, then, does capital pause more vivid, more vital than the rest; upon the threshold of investment? as though it possessed some occult The answer, we believe, to be plain, quality that speaks not merely to It awaits adjustment of the relations the imagination, or to the general course, the tips of tender green that love of nature per se, but directly to sole problem consists of determining the soul. the oak for strength, the how government can maintain an ash for mystery, the birch for her even balance between aggregations feminine grace and so forth; but the pine, like a sharp sword, pierces straight through to that inner sense ing the latter against extortion and of beauty which accepts or rejects beyond all question of analysis. The personality of this "common" tree touches the same sense of wonder that is stirred by the presence of a ordinary; and worship is ever subtly linked with wonder.

The analogy is interesting. The seen, exceptionally secure? What, pine plants its roots where more showy trees faint and die; straight, strong and sweet to the winds, it tutions. And patriotism in the minds flourishes where only gorse, heather of our youth is no longer linked solely and toughly obstinate things can live. with fireworks and deeds of daring it Out of the rock, where there seems is taught in our schools. A new not earth enough to feed a violet, it course has been added—a course in lifts its somber head undaunted; loyalty. Methodically, our children scorched by the sun, torn by the blast, learn how to vote, how to conduct peering into dreadful abysses, yet primaries, conventions and elections, utterly fearless, and yielding so little how to discriminate between qualification that the elements must pluck it up tions of candidates and, finally, how by the roots before they can destroy to govern as well as serve. They are it. Only lightning can break it. At taught to despise bribery and all a height above the sea that means forms of corruption and fraud as death to other trees, it climbs singtreason. Their creed, which they are ing, "rock-rooted, stretched athwart. made to know by heart, is not come the vacancy:" and even when the plex. It is simple, but comprehen- main army halts, stragglers are alsive, no less beautiful in diction than ways to be seen. leading forlorn lofty in aspiration. These are the hopes into the heart of desolation pledges which are graven upon their beyond. And if, amid the stress of conditions, it cannot look well, it is "As it is cowardly for a soldie- to content to look ill, showing a dwarfed run away from battle, so it is coward-, and stunted figure to the skies. Only ly for any citizen not to contribute; then, we elemental powers; what his share to the well-being of his strength in the gnarled roots, what country. America is my own dear ifron resistance in the twisted trunk, land; she nourishes me, and I will what dour endurance in the short love her and do my duty to her, thick limbs! It assumes the attitude whose child, servant and civil soldier; of the fighting animal, back to the

wall ic odds. For it has the courage of its strong soul; the power to stand alone piles of snow and chasms of ice 'mid author of "Modern Painters," nored that there is something strange- do it in close-set troops " and thrills deeply, into the region carelessly amidst the wrath spiritual suggestion of personality-winds.

LL trees, doubtless, appeal in this upright, self-sufficing tree upon some measure to the sense of a rock, buffeted by winds and waves. poetry, even in those who are asking no sympathy and dreading no not strictly speaking lovers of possible fate. The picture, symbolic of the strong soul, conveys the inevitable parable. Compared with other trees, too, the

pine does not change. One knows, of come with May and turn a pine wood into a sea of bewildering beauty. But, though deciduous, one is never aware that anything is lost; it branches never thin; it puts out, properly speaking, no buds. And the monot- when my boat failed to respond to her ony of a pine forest is merely a power and I could easily have reached detect of its great quality of constancy. In summer its shade is deeper, its recesses more cool than those of other woods; and in winter, just when most trees are leafless and unable to fight, it bears the full weight of the snow and meets the whole force of the destroying winds. It stands to face disaster when others faint or run. The analogy with man is again striking and complete. Yet its qualities are not only negative. More than most, it gives out-without reward, often without recognition; for the great forests that sweeten the world with their balsam, life-giving odors, stand most often in the desolate regions of the earth, perhaps even unknown. And, by their death, they beothers, not for themselves!

The mystery of the pines, too, seems

to hold a peculiar quality unapproached elsewhere in nature; it subdues without terrifying, inspires awe without distress, and is more human steadfastly on the subject except for than the mystery which belongs to mountains, sea or desert. The fairles come out from the pine woods; for no other woods conceal so gently, yet hold within their velvety recesses such possibilities of revelation. To meet them unexpectedly is to experience a thrill of subtle suggestion. Among tamer trees, suddenly to come upon these black, vigorous things, contemptuous of soil, independent of SEE MRS. TINGLEY IN PLOT sympathy, thriving where others droop High mountains are full of vivid or die, is to know a leap of the imagpictures of this courage against Titan- ination, an increase of vitality, as when, among a crowd of common convictions—fine, simple, tenacious— souls, one finds a man—strong, radiaas it has also that other quality of the iting confidence and hope. CAPT. LARSEN MAKES PERILOUS TRIP THROUGH NIAGARA WHIRLPOOL.

. CRAFT'S ENGINE GOES WRONG

Daring Navigator Reaches Shore Safely-is Prevented from Going on Rocks by Spectators—Arm Is Hurt.

Niagara Falls N Y .-- Capt. Klaus Larsen of Cleveland made the trip through the whirlpool rapids in his motor boat, Ferro, Sunday.

Because the engine was put out of order in the vicinity of the whirlpool he did not go clear to Lewiston in the boat which, after leaving the pool, drifted into Dead Man's eddy near Niagara university, where it was swung to shore. Larsen was picked up by an electric car and taken to Lewision, three miles further down stream, where his injured arm was treated. The boat was apparently undam-

Starting at five o'clock, it took Larsen five minutes to reach the railway bridges and the next minute his boat, the Ferro, had ridden the first wave. Then came a frightful tumult of strike after strike. Never before had a motor boat been in such a sea, but it was clear that Larsen was in control as the boat responded nicely to the helm. He shot through the rapids and into the pool like a fury and was soon being rushed across the great river rocket, having failed to make the outlet as he expected. He swung to the Canadian side and into the driftwood. But from this he hurried away under power. He drove his boat away across to the New York side and swung out of the outlet.

It was about this time that the engine went wrong and he drifted into an eddy near Niagara university below the Devil's hole. As the Ferro swung toward shore it seemed as though it would be beaten on the rocks, but people on shore prevented this and helped Larsen land.

Speaking of his experience, he said: "I tell you those waves in the rapds gave me some fierce thought they would beat my head off, but at no time did I fail to realize where I was and what was taking place. I had passed the worst of it Lewiston by drifting had I not been caught in that eddy

ROOSEVELT DEFIES HIS FOES

Challenges Opponents to Come Out in Open and Fight-Warmly Com-

mends Taft.

Syracuse, N Y .- Coming into a stronghold of the opposition, former President Roosevelt boldly challenged the opponents of his political doctrines to come out in the open and fight if they dared. He prophesied that if they did they would be beaten.

The colonel also warmly commendcome more useful still, journeying ed President Taft as a public official. over all the seas. In the true sense, and expressed his approval of a nummost ascetic of trees, accepting dis- ber of the accomplishments of the cipline that good may come for Tast administration. He did not indorse the administration as a whole. What he did have to say, however, placed him on record for the first time in regard to many of the more important features of it, breaking the silence which he had maintained his brief references to his successor made while he was on his western

Leader of Theosophist Cult is Sued by Dead Woman Convert's Son-Conspiracy Charged.

Newcastle, Pa-George L Patterson, vice-president of the National Bank of Lawrence County, has sued Mrs Katherine Tingley, head of the Theosophist colony at Point Loma. Cal., to recover \$309,000 from the esrate of his mother. He also asks for an accounting for \$7(0),000 more.

His mother, Mrs Harriet P Thurston, was a member of the colony, and charges of undue influence on the part of Mrs. Tingley are the basis of the suit

It is charged that in furtherance of a conspiracy, Mrs. Tingley placed assistants in constant contact with Mrs. Thursion, and that they imprended upon the dying woman the doctrine that the people of the world should continue one universal brotherhood; that family ties were to be regarded as of minor importance, and that her three children were not entitled to any part of her fortune.

The DY ESTHER E LUCIA CHAMBERLAIN COPTRIOUS WAS BY BODDS - MERRILL CO.

SYNOPSIS.

At a private view of the Chatworth perconal estate, to be sold at auction, the Chatworth ring mysteriously disappears. Chatworth ring mysteriously disappears. Harry Cressy, who was present, describes the ring to his fiancee, Flora Gilsey, and her chaperon, Mrs. Clara Britton, as being like a heathen god, with a beautiful rapphire set in the head. Flora discovers an unfamiliar mood in Harry, especially when the ring is discussed. She attends "ladies' night" at the club and meets Mr. Kerr, an Englishman. It comes out that the missing ring has been known meets Mr. Kerr, an Englishman. It comes out that the missing ring has been known as the Crew idol. Its disappearance recalls the exploits of Farrell Wand, an English thief. Flora has a fancy that Harry and Kerr are concerned in the mystery. Kerr tells Flora that he has met Harry somewhere, but cannot place him. A reward of \$20,000 is offered for the return of the ring, Harry admits to Flora that he dislikes Kerr. They make an appointment to select an engagement ring. pointment to select an engagement ring.

CHAPTER VI.-Continued.

In the middle of the block, sunk a little back from the fronts of the others, the goldsmith's shop showed a single, filmed window; and the pale glow through it proclaimed that the worker in metals preferred another light to the sun's. The threshold was worn to a hollow that surprised the foot; and the interior into which it led them gloomed so suddenly around them after the broad sunlight, that it was a moment before they made out the little man behind the counter, sitting hunched up on a high stool.

"Hullo, Joe," said Harry, in the same voice that hailed his friends on the street corners; but the goldsmith only nodded like a nodding mandarin, as if, without looking up, he took them in and sensed their errand. He wore a round, blue Chinese cap drawn over his crown; a pair of strange goggles like a mask over his eyes, and his little body seemed to poise as lightly on his high stool as a wisp, as if there were no more flesh in it than in his long, dry fingers that so marvelously manipulated the metal. Save for that glitter of gold on his glass plate, and the grin of a lighted brazier, all was dark, discolored and cluttered. Over everything was spread a dim-

ness of age like dust. It enveloped the little man behind the counter, not with the frailness that belongs to human age, but with that weathered. polished hardness which time brings to antiques of wood and metal. Indeed, he appeared so like a carved idol in a curio shop that Flora was a little startled to find that he was looking at her.

"Harry," she murmured to Cressy, who was stirring the contents of a box with a disdainful forefinger, "this little man gives me the shivers."

"Old Joe?" Harry smiled indulgent-"He's a queer customer. Been quite a figurehead in Chinatown for 20 years. Say, Joe, heap bad!" and with the back of his hand he flicked the tray away from him.

The little man undoubled his knees and descended the stool. He stood breast-high behind the counter. He dropped a lack-luster eye to the box. "Velly nice," he murmured with vague, falling inflection.

"Oh, rotten!" Harry laughed at him. "You no like?"

"No. No like. You got something else-something nice?"

"No." It was like a door closed in the face of their hope—that falling inflection, that blank of vacuity that settled over his face, and his whole drooping figure. He seemed to be only mutely awaiting their departure to climb back again on his high stool. But Harry still leaned on the counter and grinned ingratiatingly. "Oh, Joe, you good fien'. You got something pretty-maybe?"

... The curtain of vacuity parted just a crack-let through a gleam of intense intelligence. "Maybe." The goldsmith chuckled deeply, as if Harry bad unwittingly perpetrated some joke -some particularly clever conjurer's trick. He sidled out behind the counter, past the grinning brazier, and shuffled into the back of the shop where he opened a door.

E Flora had expécted a cupboard, but the vista it gave upon was a long. black, incredibly narrow passage, that stretched away into gloom with all the suggestion of distance of a road going over a horizon. Down this the goldsmith went, with his straw slippers clapping on his heels, until his small figure merged in the gloom and presently disappeared altogether, and only the faint flipper-flap of his slippers came back growing more and more distant to them, and finally dying into silence. In the stillness that followed while they waited they could hear each other breathe.

Then came the flipper-flap of the goldsmith's slippers returning. The sound snapped their tension, and Harry laughed.

"Lord knows how far he went to get it!"

"Across the street?" Flora won-

"Or under it. And it won't be worth two bits when it gets here." He him. peered at the little man coming toward them down the passage, flapping and shuffing, and carrying, held before him in both hands, a square, deep little box.

It was a worn, nondescript box that he set down before them, but the jealous way he had carried it had suggested treasure, and Flora leaned eag. fainter. She looked behind her and ring over her finger, "I wouldn't wear the heat fatened up and fate her reality the gesticulating Frenchman most beautiful optical delusion.

erly forward as he raised the cover, half expecting the blaze of a jewelcase. She saw at first only dull shanks of metal tumbled one upon the other. But, after a moment's peering, between them she caught gleams of veritable light. Her fingers went in to retrieve a hoop of heavy silver, in the midst of which was sunk a flawed topaz. She admired a moment the play of light over the imperfection.

"But this isn't Chinese," she objected, turning her surprise on Harry. "Lots of 'em aren't. These men glean everywhere."

She heard him dreamily. She was wishing, as she turned over the tumble of damaged jewels, that things so pretty might have been perfect. To find a perfect thing in this place would be too extraordinary to hope for. Yet, taking up the next, and the next, she found herself wishing it might be this one—this cracked intaglio. No? Then this blue onesay. The setting spoke nothing for it. It was a plain, thin, round hoop of palpable brass, and the battered thing seemed almost too feeble to hold the solitary stone. But the stone! She looked it full in the eye, the big, blazing, blue eye of it. She held it to the

She felt Harry move behind her. She knew he couldn't but be looking at it. For how, by all that was marvelous, had she for a moment doubted it? Down to its very heart, which was near to black, it was clear fire, and outward towards the facets struck flaming hyacinth hues with zigzag white cross-lights that dazzled and mesmerized.

"Harry," she breathed, without taking her gaze from the thing in her hand, "do look at this!"

She felt him lean closer. Then with an abrupt "Let's see it," he took it from her-held it to the light, laid it on his palm, looked sharply across the counter at the shopkeeper, then back at the ring with a long scrutiny. His face, too, had a flush of excite-

"Is it-good?" Flora faltered. "A sapphire," he said, and taking her third finger by the tip, he slid on the thin circle of metal.

She breathed high, looking down at the stone with eyes absorbed in the blue fire. It was too beautiful. The feeling it brought her was too sharp have been otherwise dark. It showed for pure pleasure. It was dimly like fear. Yet instinctively she shut her hand about the ring. She murmured hard as if cast in cold metal. The asout her wonder.

come here?"

"Oh, not so strange," Harry answered. "Sailors now and then pick up a thing of whose value they have no idea-get hard up, and pawn it-still his bold hand indicated the shopkeeper-"take in anything-that is, anything worth their while; and wait, the moment—and turn it to account."

It might be because Harry's eyes tongue ran recklessly. He had spoken low, but Flora sent an anxious glance to be sure the shopkeeper hadn't overheard. She had meant only to into eyes that stared back from the other side of the counter. That wide, vision. For an instant she saw nothing but the dance of scintillant pupils. at her companion's arm. "Oh, Harry!"

her. "Why, what's the matter?"

She murmured, "That Chinaman has blue eyes."

He looked at her with good-natured wonder.

the brain? I believe he has, though," he added, as he peered across the He was jerking his head, his thumb, counter at the shopkeeper, whose gaze now fluttered under narrowed lids; indulgently to Flora's face.

She could not explain her reason of fear to him. She only whispered back, "But he is awful!"

and turned his back to the counter, sharper at a bargain."

But, in spite of his off-handedness, excitement.

"Do you want it?"

"It is the most beautiful thing I ever saw, but-" She could not put it brilliantly. He came toward her out to him why she shrank from it. That of the gloom, holding the ring before feeling which had touched her at the him, as if with the light of that, and first had a little expanded, the sense the flash of his smile, he was anxious of the sapphire's sinister charm. She faltered out as much as she could explain. "It's too much for me."

and with that he seemed to make an draw the ring off her band with a min-She saw him turn briskly to the shop- ably account for. keeper.

"Now, Joe, how much you want?" That much she heard as she turned away with a fear lest it might, and a hope that it would be, too much for it's genuine, if that's what you mean."

through whose upper glazed half she a mere sensation of uneasiness. She saw the street swarming and sunny, watched Harry turn the ring over, as picked out with streamers of red and if he were reluctant to let it go out squares of green. The murmur of of his hands. And then, looking at traffic outside was faint to her cars. her, she thought his giance was a lit-

CHAPTER VII.

A Spell is Cast.

It was hers! She did not believe it. It had been done too quickly. It less, lacking the vivid heat of magseemed to her she had hardly felt Harry slip it on her finger before in a certain sort of sweetness Clara they had left the shop; that she had could produce on occasions, a way she hardly shaken off the musty inclosed had of looking and speaking which atmosphere, before Harry had left her | Flora could only describe as smooth. on the corner of California and Powell streets-left her alone with the ring!

She went over whole dramas-imaginary histories of chance and circumstance-woven about the ring, as she walked up and down the long see the thing under her glove. windy hills, westward and homeward, the blue bay on the one hand beaten spirits were riding high. From time citement. to time she had the greatest longing to peep again at the sapphire, but not until the house door had closed after her did she dare draw off her glove and look. It was still glorious. What a pity she must take it off!

. But even in the refuge of her own rooms the ring incircled Flora with than meet the party there. The unease. The light of it on her finger Bullers were already in the box, he made her restless. It wasn't that she said, and the second act of "I' Pagliacwas apprehensive of it, but she could ci" just beginning. not forget it. She could hear the maid Marrika moving about in the the lights were down, the curtain up room beyond. She slipped it off her on a dim stage, and the chorus still finger on to the dressing table, and it floating into the roof, while the three lay among her laces like a purple occupants of the box were indistinprism, cast by some unearthly sun in guishable figures, risen up and shufa magic glass. She had jewels, ru-fling chairs to the front for Flora and bles even—the most precious—but Clara. It was too dark to distinguish nothing that gave her this sense of in- faces. dividual beauty, of beauty so keen as to be disturbing. She emptied her jewel casket in a glittering heap him speaking. Under the notes of the around it. It shone out unquenched.

Flora swept the jewels and the sap sharpened by the surprise. phire back into the casket, turned the key upon them and thrust it back in glanced nervously over her shoulder to see if Marrika had noticed her high chords floated above the heads ing to and fro between the wardrobe and Flora forget the sapphire in the thread of song. All the while Flora was being

combed and laced and hooked her wood awang in that void, from which eyes were alertly on the dressing the voice sang, and a bare finger of table drawer that remained a little light followed it about from place to The murmur of the two voices talking the uncertain. She thought he hest open; and presently she caught her place. The sweet, searching tenor on inside the shop momently grow tated, and when he finally slid the soil vaguely speculating on how, after notes, the semblance of passion and

clothes so securely, she could dispose upon herself the sapphire. How had she arrived at this consideration? No course of reasoning led up to it. She was annoyed with herself. If she wasn't going to wear the ring on her finger, and show it, why did she want to take it with her at all? For fear it might be lost? Lost, in her jewel box, in the back of the drawer! She blushed for herself. Through the long afternoon it was

more apparent to her than the faces of the people around her. She was restless to get back to it, but people talked interminably. At the luncheon they talked of Kerr. Flora knew these girls felt a little resentment that she of his own, some quality that linked had so easily captured Harry Cressy; him, as it linked her, to the passionfor Harry had been more than an eligible man in the little city. He had been an eligible personage. Not that he had money; not that his family tree was plainly planted in their midist; but that without these two lawless, wandering in the voice of the things he had achieved what, with these, the people he knew were all striving for. He stood before them as the embodiment of what they most believed in-perfect bodily splendor. and perfect knowledge of how to get on in the world; and the fact that he wouldn't quite be one of them, but after five years still stood a little offmade him shine with greater brilliance, especially in the eyes of these girls. It was hard, they seemed to feel, that such an apparently remote and difficult person should have succumbed so easily; and now that a new luminary of equal luster was apparent in their sky, Flora felt their remarks a little triumphantly aimed at

But between the thread of interest the table group wove together, kept away, to be at home, to see what had happened to the sapphire. Of course, she knew that nothing could have happened; but she wanted to look at it, to open the casket and see the flash of it before her eyes.

They were dining early that night on account of the Bullers' box party, but it was nearly eight o'clock before Flora reached the house. And it was, of course, for that reason that she ran upstairs-ran wildly, regardlessly, before the eyes of Shima-and along the hall, her high heels clacking on the hard floors, and through her bedroom to the dressing room, snatched open the table drawer, unlocked the casket with a twitch of the key-and, ah, it was there! It was really real! Why, what had she expected? She was laughing at herself.

She was gay in her relief at getting back to the sapphire, but at the same she should do about it that nightunfamiliar form of the jewel through But now it was finally on her fin- the thin kid. Flora watched her curiger, she did not want to think it ously across the table that evening. would ever have to be taken off wondering what was that quality of her by which she acquired. Hitherto Flora had accepted it as a fact without question, but now she had a desire to place it. It was not beauty, for Clara was pretty, like a polished Greuze, she was colorless and flavornetism. More probably it consisted

> She made up her mind to leave the sapphire at home; but in her last moment in her room the resolution failed. Harry, of course, would be angry if he knew, but Harry wouldn't

She came down to where Clara was waiting for her, with the guilty feelgreen under the rising "trade," and ing of a child who has concealed a the fog coming in before her. With contraband cake; but the way Clara the experience of the morning, and looked her over made her conscious the exercise and the lively air, her that she had not concealed her ex-

CHAPTER VIII.

A Spark of Horror.

They found Harry waiting for them in the theater lobby. He had come up too late from Burlingame to do more

As they came to the door of the box

But dark as it was, Flora knew who was sitting behind her. She heard recitative he was speaking to Clara. Marrika was coming in, and quickly The pleasure of finding him here was

Then, as the tenor took up the theme, all talking ceased—Ella's the far corner of the drawer. She husky whisper, Clara's smoother sylwould give every one a great surprise lables, and the flat, slow, variable when the ring was properly set. She voice of Kerr-the whole house seemed to sink into stiller repose; the action. The Russian had been mov- of the black pit like colored bubbles. and the dressing table with a droning triple spell of the singing, the darkness, and the face she was yet to see.

The stage was a narrow shelf of

threw over all the stage, and the crescendo of the tragedy carried her into a mood that barred out Ella, barred out Clara, barred out Harry more than any; but, unaccountably, Kerr was still with her. He was there by no will of hers, but by some essence ate subtleties of life. He seemed to her the eager spirit that was prompting and putting forward this comedy and tragedy playing on before her. She heard him reasserted, vigorous, mimic strolling player, addressing his mimic audience. The appeal of the tenor to the voiceless galleries. "Underneath this little play we show, there is another play," seemed indeed the very voice of Kerr repeating itself.

The lights went up with a spring. A wave of motion flickered over the house, the talking voices burst forth all at once, and she saw him, really saw him for the first time that evening, as in her fancy, part of the audience; as in her fancy, neither applauding nor dissenting, yet with what a difference! He leaned back in his chair, and leaned his head a little back, as if, for weariness, he wished there were a rest behind it; and how indifferently, how critically, how levelly he surveyed the fluttered house. and the figures in the box beside him! flashing up her furtive desire to be How foreign he appeared to the ardent spirit who had dominated the darks how emptied of the heat of imagination, how worn, how dry; and even in

his salience, how singularly pathetici She felt a lump in her throat, an ache of the cruelest disappointment. as though some masker, masking as the fire of life, had suddenly removed the coverings of his face and showed her the burnt-out bones beneath. She found herself looking at him through a mist of tears-there in the heart of publicity, in the middle of the circle

of velvet curtains! He turned and saw her. She watched a smile of the frankest pleasure rising, as it were, to the surface of his weary preoccupation. Something had delighted him. Why, it was herself-just her being there! And she could only helplessly blink at him. Was ever anything so stupid as to be caught in tears over nothing! He

straightened and leaned forward. "Really," he said, "you must reember that little man

out for a glass of beer." So he thought it was the tenor who had brought her to the point of tears. "Ah, why do you say that?" she pro-

He continued to smile indulgently upon her. "Would you really rather

believe it true?" "I don't know. But I wish you

hadn't thought of the beer." He brought the glace of his monocle

to bear full upon her. "Why not? It is all we make sure of." "Oh, if to be sure is all you want,"

she burst out; "but you don't mean it! Wouldn't you rather have something beautiful you weren't sure of than something certain that didn't matter?"

He nodded to this quite casually, as if it were an old acquaintance.

"Oh, res; but the time comes round when you want to be sure of something. The sun never sets twice alike over Mont Pelee; but you can always get the same brand of lager to-day that you had the week before." He

looked at her with a faint amusement. "No, no! I won't believe you," she stoutly denied him. "There is more in life than you can touch. You're not like yourself to say there is not." He laughed, but rather shortly.

"My dear child, forgive me; I'm sulky to-night. I feel, as I felt at 18, that the world has treated me badly. I've

lost my luck." "I'm sorry." Her tone was sweetly vague. What could be the matter with him? Then, half timidly, she rallied him. "If you go on like this,

I shall have to show you my talisman." "Oh, have you indeed a talisman?" he humored her. And it was as if he said: "Ob, have you a doil?" He did

not even turn his head to look at her. She was chilled. She felt the disap-

pointment, that his quick smile had lightened, return upon her. She hardly noticed the rise of the curtain on the second little play, and the singing voices did not reach her with any poignancy. She was vaguely aware of movements in the box-of Harry's coming in, of Clara's little rustle making room for him, of the shift of Ella's chair away from the business of listening, toward him, and her husky whisper going on with some prolonged tale of dull escapade; but to Flora they all made only a banal background for the brooding silence of her companion.

(TO BE CONTINUED.)

The Oasis of Love.

The mind's eye shows us love as the casis in the Sahara of life; so, together, two set out to seek the haven of rest in the great journey. But, as the travelers approach, their paradise recedes; in just such measure as the pilgrims hasten, their Mosea retreats. Love is a witching chimers—lifein

KEEPING THE CLOSET CLEAN

One Solution of This Problem That Confronts Many is to Paint It White.

Usually there are about the house closets so dark that except at the yearly or semi-yearly housecleaning it is impossible to tell whether or not they are dirty. They are breeders of disease, even in the best-managed households, for no maid and few mistresses will crawl into the dark hole under the stairs or back in the kitchen after perfectly invisible dust.

One solution of the problem is to paint these closets white, ceiling, floor and walls. It is easy enough to see dirt then, and the other and more useful contents of the closet as well.. If one can keep the hall closet clean, and find the family overshoe on sight, simply by painting the closet white, then, by all means, let us hasten to the paintshop and remove the obsolete and horrible wall paper that usually incumbers these germ hotels.

If the closet is still dark after this treatment, try cleaning with the aid of the electric flashlight. There is no danger of fire, and corners can be closely investigated. All of which is an advantage to the housewife who does not love dirt and disorder.

But always, when cleaning day comes, consider first the closets, and most important of all of these is the sloping, dark, neglected closet under the stairs.

Rice Cutlets.

Two eggs, one-quarter pound of rice, one tablespoonful of grated cheese, two ounces of any kind of nut food, one-half cupful of brown bread crumbs, one tablespoonful of tomato sauce, a few sprigs of parsley, pepper and salt. Wash and put the rice in one pint of boiling water; boil rapidly until rice is tender and water absorbed; turn on a sieve, add onehalf teaspoonful of salt when half cooked. Stew the nut food in a gill of water for ten minutes, add the rice and the cheese, seasoning, then the yolks of the two eggs, well beaten. Stir the mixture thoroughly until set. then turn on a dish and let the whole cool. When cold form into cutlet shapes, dip each into white of egg. and roll in fine bread crumbs. Fry in smoking hot fat and serve hot. These two recipes are fairly rich in body building elements and will be found to be excellent meat substitutes and greatly relished now that meat prices are ever soaring.

Filler for Floors.

When you are having your floor stained here is a good filler, recommended by a paint man; to cover up the cracks in a carpetless floor.

It is nothing more nor less than newspaper and mucilage. Soak the newspaper in warm water until it is reduced, by tearing and squeezing, to a mere pulp; mix this pulp with enough mucilage to give it consistency and stuff the cracks with it by means of a pointed stick, smoothing them off carefully so as to avoid lumps.

This will do just as well as an expensive and troublesome putty filler.

Chicken Salad.

An attractive way of serving chicken salad is to place it in a ring of ham jelly. Two cupfuls of the salad should be poured in the ring of jelly after it is placed on a platter. To make the dish attractive the jelly should rest on lettuce or watercress. For the ham jelly whip one-half pint of thick cream until stiff, stir in a cupful of aspic jelly, cool a little, and add a jar of potted ham. By adding a few drops of fruit sirup it will make the jelly pink.

Mock Roast.

One cup of beans, boiled and mashed; one cup of peas, boiled and mashed; one cup of finely chopped peanuts or pecans, one cup of dry bread crumbs. Moisten the bread crumbs with water and mix with the mashed peas, beans, and nuts. Season with sait, pepper and onion juice. Put into a buttered baking dish, cover with a cup of rich cream and bake about an hour and a balf. This is very healthful and a fine substitute for meat.

Apple Dessert.

Take a large apple cut in half, not lengthwise. Remove the core and all | tled to know what to feed him on. the inside of the apple, leaving just the shell thick enough to serve the salad in. Slice some apples very thin, cut dates in small pieces and break fill the apple shell with this salad. Place on a dessert dish, cover the top ground nuts. Put a walnut meat in for dinner. the center.

Uncooked Ripe Tomato Relish,

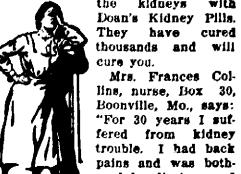

One-half peck of ripe tomatoes, peel cut in small squares, drain two hours; add one cupful of grated horseradish. one cupful yellow mustard seed, two tablespoonfuls of salt, two tablespoonfuls of celery seed, two cupfuls of sugar, one tablespoonful of black pepper, two red peppers cut fine, two tablespoonfuls of cinnamon, ground, one quart of cider vinegar; bottle cold and seal. Do not heat or cook any of it.

Pineapple Punch.

Boil a pound of sugar and a quart of water for five minutes; strain, add any children in this city, and, of to it the juice of one lemon and half pint of grated pineapple; stir and Grape-Nuts for she has the evidence strain again; add sufficient amount of before her eyes every day." cracked ice to make it palatable, and add half a pint of finely picked pine in pkgs. "There's a Reason." apple and a few raspberries may also **be** added.

AN UP AND DOWN ARGUMENT.

Sam-I wants yo' toe understand dat Ise no common nigger. Ise had a good bringin' up, I has.

Pete-Dats all right, but ef yo' fools wid me, man, yo'll hab a good frowin' down, too.

She Took No Chances. A happily wedded matron is the principal of an odd incident, which one of her "dear" friends relates.

Before the matron's engagement' to her present husband was announced, she met her "dear" friend on the street. The new matron was hurrying toward one of the large jewelry stores of the city.

"John gave me an engagement ring," she explained, without a shadow of embarrassment, "and I am going down : to see how much it cost. You see, I got the jeweler's name off the box," and she hurried on. The same friend said that another

bit of information the matron got was the commercial standing of the prospective husband, which by paying for a special report from a commercial agency.

Confusing.

Craig Biddle, at a dinner in Newport, was describing the changing odds on the Jeffries-Johnson fight at Reno.

"Eight to four and a half on Jeffries-nine to six the other way about -three to one and a quarter-it's rather confusing, isn't it?" he said. "In fact, it's almost as confusing as the two giris' talk about a secret.

'Mary,' said the first girl, 'told me that you had told her that secret I told you not to tell her."

"'The nasty thing,' said the other 'I told her not to tell you I told her.

"'Well,' said the first girl, 'I told her I wouldn't tell you she told meso don't tell her I did."

PUZZLED Hard Work, Sometimes, to Raise Children.

Children's taste is ofttimes more accurate, in selecting the right kind of food to fit the body, than that of adults. Nature works more accurately through the children. A Brooklyn lady says: "Our little

boy had long been troubled with weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak little chap and we were puz-

"One lucky day we tried Grape-Nuts. Well, you never saw a child eat with such a relish, and it did me good to see him. From that day on the nut meats. Mix all tegether and it seemed as though we could almost see him grow. He would eat Grape-Nuts for breakfast and supper, and I with whipped cream and sprinkle with think he would have liked the food

"The difference in his appearance is something wonderful.

"My husband had never fancied cereal foods of any kind, but he became very fond of Grape-Nuts and has been much improved in health since asing it. "We are now a healthy family, and

naturally believe in Grape-Nuts. "A friend has two children who were

formerly afflicted with rickets. I was satisfied that the disease was caused by lack of proper nourishment. They showed it. So I urged her to use Grape-Nuts as an experiment and the result was almost magical. "They continued the food and today

both children are well and strong as course, my friend is a firm believer in Read "The Road to Wellville," found

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."
—Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyere, St. Regis Falls, N. Y. There is absolutely no doubt about the ability of this grand old remedy, made from

the roots and herbs of our fields, to cure

female diseases. We possess volumes of proof of this fact. enough to convince the most skeptical. For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to

herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Rate Making in Chicago.

The Metropolis of the West Has a Problem on its Hands in the Municipal Regulation of Corporations That Will Tax Its Best Efforts to Satisfactorily Solve.

Two interesting contributions to the subject of Municipal Regulation of ber of The World Today, and the other was by Alderman William J. Pringle, in The Voter.

stons of experts employed by the city of Chicago into the subject of telepresent ordinance are \$900,000 a year indebtedness, on floating indebtedexperts-Mr. Morris asks:

"Will the council have the courage they are found to be too low, and if and liabilities. so, will the public sustain the city council in doing so?"

now attempting to regulate the tele-Morris, and he replies in the affirmative in practically all cases.

The whole principle of municipal regutation will be on trial in Chicago during the next three or four months, during which time the telephone rates will be discussed and arranged for a five-year period, and not only is Chicago interested in the subject, but the entire country, for the reason that the handling of the question in Chicago will ret the pace in other communities. Referring to the report made by the commission of experts. Mr. Morris

These gentlemen spent some two years in their examination of the books and accounts of the Chicago Telephone Company, and their report, as submitted to the city controller, undoubtedly presents the results of a thorough investigation of its operations. It divides the service furnished by the corporation into twenty-six classes On eight of them it appears there are annual surplus earnings of \$535,112, while on the other items there is a shortage of \$1,443,646, leaving a net deficit of \$908,533.

Mr. Pringle, in The Voter, begins his article with a statement of the growth of the telephone service in Chicago which shows the following:

| 1878 | | | | | | | | • | • | ٠ | • | • | - | • | ٠ | ٠ | * | • | • | | • | • | | - 9 | W |

While driving tump up and spill the whole pail of along one of the main roads he nofeed over you, when you are reachticed a large black bear and her five ing out at arm's length to place it cubs running along a line fence a carefully in the trough, says Amerishort distance ahead. Mr. Chadwick can Agriculturist. This may be jumped from the buggy and succeeded in catching one of the cubs, but the other turned on him with a roar and he was obliged to drop the cup and take to his beels, regaining the rig a few laps ahead of the animal. This is the first appearance of bears in this vicinity in several years and they are thought to have been driven out from the northern woods by forest fires. La Crosse.-Morcena Dunn, in-

ventor of the Dunn coupon fraudproof ballot, will ask the next legislature to adopt his coupon ballot, permitting the voter who is unable to vote to give his proxy to his wife, who may cast the ballot for him. Dunn claims many farmers and laborers fail to vote each year because of the inconvenience of getting to the polls. Dunn's system was approved by the last legislature and its use made optional with the counties. It will be given a trial in the November elections in La Crosse and Eau Claire counties.

Portage.-John Hammer, a onearmed policeman, shot and probably fatally wounded Richard Rittenhouse. New York, on the street here. Effective Method of Arranging Barrier Mr Hammer was attempting the arrest of another person and fired the shot. The bullet went astray and struck Mr. Rittenhouse, who was standing some distance away and was not interested in the affair. Mr. Rittenhouse is a private in the Twentyseventh infantry, which was passing through Portage en route from Sparta to Fort Sheridan.

Milwaukee - The weirdest tale of fisherman's luck of the year from northern Wisconsin came from Rhinelander, when an immense muskalonge, the biggest ever captured in the state, was shipped by Howard Kelley to his friends. The fish weighed sixty-two pounds, and measured fiftysix inches Kelley was out in a boat with his wife on Lake Laura when he hooked the fish. He battled with it until the "musky" with a tremendous lunge pulled him out of the boat. Then Mrs. Kelley shot the fish.

Marinette.-After being out eleven hours, the circuit court jury in the case of Ina Lambert, school teacher in the town of Sevastapol, Door county, charged with assault and battery for whipping a pupil, disagreed. This is the famous whipping case which bred bitter factions in the entire county. Boneta Marsh, aged fifteen, was the child punished. pieces, making a fence that will even It is doubtful if the case ever will be tried again.

Pontiac.-Ottawa with her offer of \$25,000 city bonds got into a good bond market and when the bonds were opened it was found that N. W. Halsey & Co. of Chicago was willing to pay \$23,000 and accrued interest and a premium of \$1,121.25. The bonds were sold to this firm. The next highest bidder was A. B. Leach & Co. of Chicago, who offered a premium of \$1,057.

Marinette.-The first hunting accident of the season in this vicinity happened when Frank Cardy of Jacksonport, by the accidental firing of his gun, blew off a large portion of one hand and a part of his jaw and cheek. He was found near death from loss of blood by a party of mail carriers.

Kenosha.--A movement has been started here to have Robert Verne Baker, district attorney of Kenosha county, nominated for the office of attorney general on the Republican ticket in place of Frank T. Tucker, deceased. Baker says he is willing to accept the nomination.

Marinette.—With the son born recently Mr. and Mrs. Joseph Martells, residents of Goodman, Marinette county, now have 18 children, six having been born in little over over an ounce of the laudanum. Keep the amount of pork it would if fed three years. Triplets came three years ago, twins last year and a son a few days ago.

Marinette. - Mrs. Frank Bobrosski, living about fifteen miles from Marinette, swallowed a half An excess of fat is not desirable pound of parts green. She had been despondent. Physicians say there is ly regulate the quality of the meat no hope for her recovery. She is thirty-two years old.

Monroe.—A traction engine and a herd of dairy cows asks about alfalfa rich in fertilizing value, and it has tank wagon, owned by Henry been found that spring wheat does Steininger, went through a bridge west of Juda and fell into the water below, where they still remain. Mr. Steininger and two employes narrowly escaped injury.

Madison. -- It is expected that Madison for 1910 will show an increase of nearly \$990,000 over 1909. The total will be about \$31,990,090.

Eau Claire. - Five horses, in The department of agriculture at connection with corn to fattenting | shipment from Eau Claire to Minneapolis, were burned to death in a box car in Menominee Junction. The cause of the fire is not known. Markesan.-Mrs Ernsperger, wife

of the proprietor of the Yosemite house, was thrown from a cariv. He profits in the long run by so large and broke both bones of her left doing. No breeder should sell as irm above the wrist.
